**National Rural Health Association Supports Health Care that
Works for All Americans**

Washington, DC, -- November 10, 2005 – The Citizens' Health Care Working Group is pleased to include the National Rural Health Association among the national organizations who are in support of this effort to engage individual citizens across the U.S. in finding solutions to make health care work for all Americans.

The Citizens' Health Care Working Group is a nonpartisan group authorized by the Medicare Prescription Drug, Improvement and Modernization Act of 2003, charged with developing recommendations for the President and Congress to provide U.S. citizens with "health care that works for all Americans." The *Health Report to the American People*, will serve as a base to engage the American people in a dialogue on health care access, cost and quality issues. The Working Group consists of 14 citizens of diverse backgrounds from across the country, in addition to Secretary of Health and Human Services Michael O. Leavitt. To view The *Health Report to the American People* or get more information on the Citizens' Health Care Working Group, visit www.citizenshealthcare.gov.

Editor's note: The Citizens' Health Care Working Group is an independent body whose members were selected by the Comptroller General of the United States. The Agency for Healthcare Research and Quality provides administrative support as directed by the Medicare Modernization Act.
