

HEALTH CARE
THAT WORKS FOR ALL
AMERICANS

We want to learn more about your experiences with our health care system. Please take a moment to share them with us. We want to hear what you have to say and see what you have seen. You can type your thoughts in the first box below, and upload videos, pictures, or documents about your experience in the second box. We may contact you to discuss your experience. Thank you.

1. We all have different experiences getting health insurance or in seeking health care. Sometime these are good experiences, while other times they are not. We may meet very special providers or encounter new and innovative practices. Other times the American health care system disappoints us. Please tell us what has worked well or hasn't work well for you or your family.
