## WYOMING

### GOAL 1  Ready to Learn

1. Has the percentage of infants born in the state with 1 or more of 4 health risks decreased? (1990 vs. 1997)\(^1\)
   - 1990: 41%  
   - 1997: 39%  
   - Significantly better

2. Has the percentage of fully immunized 2-year-olds increased? (1994 vs. 1997)
   - 1994: 78%  
   - 1997: 74%  
   - Interpret with caution. Change was not statistically significant

3. Has the percentage of infants born at low birthweight decreased? (1990 vs. 1997)
   - 1990: 7%  
   - 1997: 9%  
   - Interpret with caution. Change was not statistically significant

4. Has the percentage of mothers receiving early prenatal care increased? (1990 vs. 1997)
   - 1990: 81%  
   - 1997: 82%  
   - Significantly better

5. Has the number of children with disabilities in preschool (per 1,000 3- to 5-year-olds) increased? (1991 vs. 1998)
   - 1991: 54  
   - 1998: 81  
   - Significantly better

### GOAL 2  School Completion

6. Has the high school completion rate increased? (1990 vs. 1997)
   - 1990: 88%  
   - 1997: 86%  
   - Interpret with caution. Change was not statistically significant

   - 1995: 7%  
   - 1997: 6%  
   - Interpret with caution. Change was not statistically significant

### GOAL 3  Student Achievement and Citizenship

8. Reading: Has the percentage of students scoring at or above Proficient increased
   - In Grade 4 (1992 vs. 1998)\(^2\)
     - 1992: 33%  
     - 1998: 30%  
     - Interpret with caution. Change was not statistically significant

   - In Grade 8 (1998)
     - 1998: 29%  
     - Interpret with caution. Change was not statistically significant

9. Writing: Has the percentage of students scoring at or above Proficient increased
   - In Grade 8 (1998)
     - 1998: 23%  
     - Interpret with caution. Change was not statistically significant

---

### Children's Health Index

- Percentage of infants born with 1 or more of 4 health risks\(^1\)

<table>
<thead>
<tr>

---

**KEY**

- Significantly better
- Significantly worse
- Interpret with caution. Change was not statistically significant.

---

* Data not available.
* Baseline years and most recent update years may differ by state for this indicator. See Appendix B for more information.
* See pages 246-248 for an explanation of statistical significance.
* See pages 16-19 for a Guide to Reading the State Pages. See Appendix B for technical notes and sources.

---

* Since the end of the previous school year.
GOAL 5  Mathematics and Science

17. Has the state’s international standing improved in
   • Grade 8 mathematics achievement? (1996)
   • Grade 8 science achievement? (1996)

18. Has the percentage of public school 8th graders whose mathematics teachers report that they
   • have students work in small groups or with a partner increased? (1996)
   • address algebra and functions increased? (1996)
   • address reasoning and analytical ability increased? (1996)

19. Has the percentage of public school 8th graders who have computers available in their mathematics classroom increased? (1996)

20. Has the percentage of mathematics and science degrees awarded to
   • all students increased? (1991 vs. 1996)
   • minority (Black, Hispanic, American Indian/Alaskan Native) students increased? (1991 vs. 1996)
   • female students increased? (1991 vs. 1996)

GOAL 6  Adult Literacy and Lifelong Learning

21. Has the percentage of adults scoring at the 3 highest levels in prose literacy increased? (1992)

22. Has the percentage of U.S. citizens who report that they
   • registered to vote increased? (1988 vs. 1996)
   • voted increased? (1988 vs. 1996)

KEY

| Significantly better | Significantly worse | Interpret with caution. Change was not statistically significant |

Indicators are not the same at the national and state levels.
Data not available.
See pages 245-246 for an explanation of statistical significance.
See pages 16-19 for a Guide to Reading the State Pages.
See Appendix B for technical notes and sources.
23. Has postsecondary enrollment increased? (1992 vs. 1996) 47% 53%  

24. Has student marijuana use decreased? (1995 vs. 1997) 22% 23% @

25. Has student alcohol use (5 or more drinks in a row) decreased? (1995 vs. 1997) 14% 13% †

26. Has the availability of drugs on school property decreased? (1995 vs. 1997) 24% 32% †

27. Has the percentage of students threatened or injured with a weapon while on school property decreased? (1995 vs. 1997) 7% 7% †

28. Has the percentage of students involved in physical fights on school property decreased? (1995 vs. 1997) 17% 14% †

29. Has the percentage of students carrying weapons on school property decreased? (1995 vs. 1997) 3% 4% †

30. Has the percentage of students who do not feel safe at school decreased? (1995 vs. 1997) 11% —

31. Has teacher victimization decreased? (1994) 11% —

32. Has the percentage of students threatening or injuring with a weapon while on school property decreased? (1995 vs. 1997) 28% 39% †

33. Has the percentage of schools with minimal parental involvement decreased, according to public school teachers? (1991 vs. 1994) 15% 17% †

34. Has the influence of parent associations on school policy increased? (1991 vs. 1994) 16% 19% †
