Subject: income tax

Dear hon. sen connie mack,

I would like to add my opinion to the income tax reform debate.

Please do away with the separate categories for single, married, head of household etc, etc.

It is taken care of with the exemption thing. That alone would make the code **much** simpler.

At least it would be less aggravating to read the instructions.

Each individual should be treated equally as an **individual**.

I hope I'm not telling you anything you haven't already considered.

Why not do it ?

If I could be of any assistance in the tax reform efforts, please let me know. Thanks, Klaus.
