Dear Sir I understand you have been selected to the Presidents Advisory Board on Federal Tax Reform. This is an important position one that I hope you will take seriously and not be coerced into making decision that will adversely affect We The People. You need to give your honest opinions based on facts. The facts as I see them are simple the Tax code is way to complicated and costly for us Americans. There is much waste in the present tax system , which is Killing business. I have read that there are 14,000 pages of tax codes and that over 10 billion dollars a year are spent by taxpayers to try to be legal? There are also about 60-70 million Americans that have quit filling tax returns?

I vote for a fair tax "National Retail Sales Tax" its simple and fair.

Thank You
Mike Carey
