Dear Sirs;

I am writing to express my support for the FairTax Plan now in the House
committee on Ways and Means. It is known as HR25/S25.

The Fairtax is a progressive system of taxation on consumption rather than a
penalty on production and innovation. It is open and visible to all citizens and it de-taxes
those who consume only at the poverty level.

As I understand the Presidents wishes about any new tax reform, the Fairtax is the
only one which meets all the requirements and is far superior to the current, broken, very
expensive, intrusive pseudo-system we have now in place.

Sincerely
Kenneth E. Howe
