

# !!!ABOLISH THE I.R.S.!!!

PRESIDENT'S ADVISORY  
PANEL  
ON FEDERAL TAX REFORM

2005 MAR 29 A 11: 45

The I.R.S. is a government-sanctioned **TERRORIST** organization that is destroying the Bill of Rights and gravely threatening the survival of America as a free nation. There are three major reasons that it should be Immediately abolished!

I. MORAL. The income tax is inherently incompatible and irreconcilable with personal liberty: It is impossible for liberty to co-exist with an income tax. How can there be genuine freedom or privacy when **ARROGANT ABUSIVE I.R.S. GOONS** raid our businesses, bank accounts, and homes and then answer to no one but their puppet courts? Being extorted to work half the year to pay taxes and THEN fill out psychotically convoluted tax forms is nothing less than **SLAVERY!** On the other side of the tax coin, by meekly acquiescing to this abomination to freedom, we tax slaves are guilty of spawning a massive, inefficient, criminally-corrupt, tyrannical government that is wreaking murder and mayhem here and abroad. Our **bloodied tax dollars** have murdered millions - Vietnam, Central and South America, the Middle East, and domestically paid for the assassinations of J.F.K. MLK, and the Waco holocaust. Who's next? Is it any wonder that foreigners hate and want to attack an insane, murderous, imperialist America? Our **FEDERAL FRANKENSTEIN** is five times larger than is constitutionally justifiable; its insatiable, cancerous appetite is robbing families of any hope for financial or social stability. How many business failures and broken families has the I.R.S. caused? How many audit-heart attacks or audit-suicides? Our **MARXIST TAX SYSTEM** [2d plank of the Communist Manifesto] is doing exactly what it was designed to do - create an all-powerful, centralized, authoritarian government while reducing the citizens to serfdom. It is readily apparent why the wise men who founded this nation fervently sought to greatly limit the size, power, and scope of the Federal government.

II. PRACTICAL. According to James Payne in "Costly Returns" the tax code has become so complex that it is **costing the private sector 65 cents for every dollar the I.R.S. collects.** That 700 billion dollars is equivalent to all the manpower hours to build every car, truck, and plane in America. 17,000 pages of **code debauchery** with enough forms to go around the world **25 times...every year!** **We have an insane, freedom-destroying, absurdly expensive - masochistic - tax system that must be abolished before it abolishes us!**

III. LEGAL. Surprise...the I.R.S. is a fraud and scam through and through! Beckman and Benson in "The Law That Never Was" conclusively prove that the 16th amendment was never passed. On top of that, in 1916 the Supreme Court in "Brushaber vs. Union Pacific" said the 16th amendment didn't change the prohibition against the Feds to directly tax individuals! So how is it that the I.R.S. is still taxing us, still seizing homes and bank accounts? Simple. They **trick** you! When you "volunteer" to get a social security number or fill out a 1040 form you have made a **private contract** with the I.R.S. to give up your constitutional rights and become their indentured slave! You legally enter their warped world of verbal subterfuge where words like "employee," "wage," "income," "United States," "person," "resident," "citizen" etc. etc. mean one thing in everyday language and quite another in criminally deceptive I.R.S. legalese. Be extremely wary of these Congressionally-hired **thugs in suits!**

## WHAT YOU CAN DO

If you have any love or concern for your country - and your world - you need to seek out the **many legal and "illegal" ways** to avoid paying income taxes. Confronting the **Gestapo I.R.S.** directly is probably not the most optimum way to end their r... terror. Rather, **widespread education about the deceit and destructiveness o... R.S.** will be more effective...followed by widespread non-cooperation and non-compliance, much like the prohibition of alcohol was ended.

Join the Libertarian Party ([www.lp.org](http://www.lp.org) and [www.fff.org](http://www.fff.org)) or any other "third" party. The Republicrats have prostituted themselves way beyond any hope for redemption.

Join F.I.J.A., the Fully Informed Jury Association 800-TEL-JURY([www.fija.org](http://www.fija.org)) who want you to know that as a juror, you have the right and DUTY to **judge the law itself** as well as the accused. Full understanding of this principle alone could destroy the I.R.S.

Learn all you can about our monetary system - the private-for-profit corporation called the Federal Reserve System (5th plank of the Communist Manifesto). Basically, the FRS is designed to **embezzle the wealth** of the average citizen by systematically inflating the money supply. **BOTH the Federal Reserve System and its collection agency - the I.R.S. - must be abolished in order to restore freedom.** Read Ed Griffin's "The Creature From Jekyll Island" or Devvy Kidd's "Why a Bankrupt America" ([www.deevy.com](http://www.deevy.com)) or "Goodbye April 15th."

Until we get an honest money system, look at the various sales tax propositions ([www.fairtax.org](http://www.fairtax.org)). A sales tax on retail goods [excepting food, housing, and medical] is vastly simpler, ultimately fairer, and gets Big Brother out of our personal lives and pocketbooks. Most of our taxes should not be sent far away to the unaccountable Feds, but should be **collected and spent locally** where we can keep our **EYE** on 'em.

Plaster copies of this flyer everywhere. Send copies to clubs, newspapers, magazines, Congress. Flood the I.R.S. with copies...frequently! They'll especially appreciate it!

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain **unalienable rights**...That when any government becomes **destructive** of these rights, it is the right of the people to alter or **ABOLISH** it"

Good taxation promotes prosperity and freedom while bad taxation promotes poverty and tyranny. **America is rapidly plunging into a fascist police state with the Gestapo I.R.S. at the helm!** If you truly seek peace, freedom, and justice for your country - and the world - the crucial first step is to cease supporting senseless violence by anyone - especially government! **You have a moral duty to disobey and thwart vicious, immoral, unconstitutional laws.** None of us can ever be **safe** or **free** as long as the IRS exists, so let's...
