Dear Panel:

Re: Taxation Laws Unfair to GLBT Families

We are the United States of America and are supposed to be a free country with equal rights for all. Therefore, when you make your recommendations to President Bush re options to reform the tax code, please include equal rights for all GLBT Families to include health insurance, flexible medical accounts, retirement benefits, children of same sex parents to be recognized as dependents for tax purposes, etc.

Thank you for your cooperation.

Sincerely,

Phyllis A. White
