It appears to us, that the President and his panel need a reality check. We are paying enough TAXES despite what the career politician Alan Greenspan and his cohorts in Washington, DC claim. The problem with the system is outright government abuse and trampling of our Constitutional Rights. Let me give you the following true story. On December 24, 1995 we learned the truth about the voluntary nature of the income tax. Yes, I said Voluntary. It is not an error. Much to the IRS' dissatisfaction, we refused to file and pay a tax we legally did not owe. To the IRS' delight, we are known as tax protestors. The label is irrelevant; the point is we know the truth. Both the IRS and the California Franchise Tax Board label anyone who stands up for his or her rights a tax protestor. We did the research. We studied the code and the regulations. We researched court cases. The point is we followed the procedure outlined in the Internal Revenue Manual. As a result of the tyrannical system in place, our wages have been seized and a lien filed against us in an effort to force us to comply. The IRS senate hearings did little for the taxpayer and his rights. The IRS is required to give you a collection due process hearing, but they are also "required" by the code to produce an assessment signed by an assessment officer and they are "required" to produce a statutory notice and demand. The IRS refused to provide the statutory documentation to us at the collection due process hearing. Why? Because they did not have it. They failed to follow procedure. They moved instead to steal our property without a court order and deny our due process rights. I know Mr. Rosotti is a member of your panel. We sent several letters to Mr. Rossotti or the acting commissioner at the time, in addition to sending several letters to the Secretary of the Treasury. We detailed the abuse by the IRS and our complaints fell on deaf ears. We are tired of the lies. It's time for the government of this country to start abiding by the Constitution. Since Bush has been in office, our jobs have been outsourced, Corporation taxes have been reduced, and both medical expenses and gas is soaring,

in addition to the ever-increasing cost of living. Most Americans are out of work or on unemployment and those who are fortunate to land a job, are paid far below industry standards. And now you want us to pay another tax. This country was founded on the principle that the people are the masters. The truth is the people have become slaves to a tyrannical government that is above the law. The IRS has worked very hard to hide the fact that the income tax is voluntary with deception and words of art. They also claim **they** are the highest form of authority. Now as far as I know, we still have a Constitution in this country until Bush and his cronies destroy that as well. Our government answers to no one and DOJ lawyers have corrupted the justice system. If the almighty tax protestors are so wrong, than why is the IRS trying so hard to lock up everyone who is out there telling the truth? The Supreme Court is the highest authority and they said in Flora vs. United States (362 U.S. 145,176) **“Our system of taxation is based upon voluntary assessment and payment, not upon distraint.”** Yet the IRS operates by distraint. The American public is forced to pay this tax in addition to many other “voluntary” taxes. They’re just hoping you never find out the truth. Now you want us to pay another tax on everything we buy. It’s time to deal with the real problem, GOVERNMENT ABUSE and GOVERNMENT RUN AMUCK. Our nation thanks to President Bush is running deficits in the trillions of dollars. The American citizen is expected to pay for all his war mongering with our blood, sweat, and tears. It’s time to put your foot down and enforce our Constitutional Rights. Why should we have to pay another tax? We are not slaves. We are supposed to be a free nation. It’s time to bring the president in line. He is not above the Constitution and neither are you. The real problem is the guys who should be making decisions are never going to be on your panels. The people who are educated and trained in the law and believe in binding the government with the chains of the Constitution will never be given the

opportunity such as the one presented to you. Our congress and senate is corrupted with lawyers and career politicians who only goal is to steal more of our hard earned money in one form or another while on the other hand looking for another way to take away our rights. By the way, did you know the city of San Francisco is trying to make their citizens pay a tax on grocery bags? Yes, it's true. The city of San Francisco wants to charge .17cents/bag, paper or plastic and the money goes to the store. What's next? A tax on being born? The president knows nothing of reform let alone how to run a country. The only ones benefiting from his decisions are his cronies and big corporations who undoubtedly paid for his reelection and are raking in millions of dollars in profits. Just look at the oil companies. This man is sending this country down the sewer hole. The middle class has now joined the poverty ranks. The way to eliminate the middle class in any country is to tax them, "I'm From the Government and I'm here to Tax You into poverty." Patrick Henry said, "Give me liberty or death" - He should have said "Give me liberty or you'll will wish I was dead." We end with this quote from the great movie the Patriot, "Why should I trade one tyrant 3000 miles away for 3000 tyrants one mile away? An elected legislature can trample a man's rights just as easy as a king can." Yes, it appears the king is alive and well in Washington, DC.

Respectfully,

Mark E. Holm
