Federal Tax Reform Panel
Of the United States of America
Chairman Connie Mack III
Total 1 Pages

May 18,2005

Dear Connie Mack III,

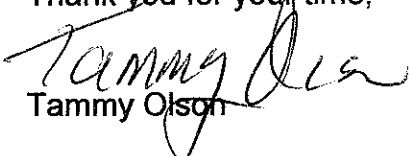

Let me introduce myself. My name is Tammy Olson and my husband, Tom, and I own a Monument business in Bozeman and Livingston, Montana, and have two additional employees. We purchase the monuments polished and shaped. We then engrave them with our sandblaster placing the designs and the appropriate words to memorialize that person's life.

The reason I am writing to you is to let you know that we as owners of a retail shop are in full support of the Fair Tax Act, that you had a hearing on last Wednesday on May 11, and would like to encourage you to be in full support of this tax reform.

As parents of two children, who are extremely important to us, the future of America with an American Government is very crucial to us. As we see more and more companies leaving America because of the current income tax system we impose on them, we are seeing in a very slow way, our American business being ruled by foreign governments. And our people purchasing foreign goods because they are a very good quality and cheap. Consequently we are becoming more controlled by foreign governments and in debt to these other countries, and less in ownership of America. There will be no physical battle, but we will loose America the Land of the Free if we do not stop the flat tax or income tax approach. The one and only method that would totally turn this around is the Fair Tax Act,(end product sales tax). Businesses would return to America and more businesses would develop, and as you know that means jobs, prosperity, stability and most importantly a Nation with Our Constitution in place and Our American Government ruling America.

Please endorse Fair Tax Act. You can receive more of the complete studies done by some of our top economists at www.fairtax.org.
This is the most solid way to restore America.

Thank you for your time,

Tammy Olson
