TEXAS

GOAL 1 Ready to Learn
1. Has the percentage of infants born in the state with 1 or more of 4 health risks decreased? (1990 vs. 1997)?
   - Baseline: 32% 29%
   - Update: 37% 33%
   - Progress?: 25-48% 24-45%
2. Has the percentage of fully immunized 2-year-olds increased? (1994 vs. 1997)
   - Baseline: 71% 75%
   - Update: 75% 79%
   - Progress?: 61-89% 71-87%
3. Has the percentage of infants born at low birthweight decreased? (1990 vs. 1997)
   - Baseline: 7% 7%
   - Update: 7% 8%
   - Progress?: 5-15% 3-13%
4. Has the percentage of mothers receiving early prenatal care increased? (1990 vs. 1997)
   - Baseline: 68% 79%
   - Update: 76% 83%
   - Progress?: 47-87% 57-90%
5. Has the number of children with disabilities in preschool (per 1,000 3- to 5-year-olds) increased? (1991 vs. 1998)
   - Baseline: 29 36
   - Update: —
   - Progress?: 16-68 14-96

GOAL 2 School Completion
6. Has the high school completion rate increased? (1990 vs. 1997)
   - Baseline: 78% 80%
   - Update: 86% 85%
   - Progress?: 77-96% 75-95%
7. Has the high school dropout rate decreased? (1997)
   - Baseline: 4%
   - Update: —
   - Progress?: 3-12% —

GOAL 3 Student Achievement and Citizenship
8. Reading: Has the percentage of students scoring at or above Proficient increased
   - in Grade 4 (1992 vs. 1998)?
     - Baseline: 24% 29%
     - Update: 29% 31%
     - Progress?: 3-38% 8-46%
   - in Grade 8 (1998)
     - Baseline: 20%
     - Update: 33%
     - Progress?: 10-42% —
9. Writing: Has the percentage of students scoring at or above Proficient increased
   - in Grade 8 (1998)
     - Baseline: 31%
     - Update: 27%
     - Progress?: 9-44% —

Key
- Significantly better
- Significantly worse
- Interpret with caution. Change was not statistically significant.

Children’s Health Index
- Percentage of infants born with 1 or more of 4 health risks1 (Indicator 1)
- Risks are: late (in third trimester) or no prenatal care, low maternal weight gain (less than 21 pounds), mother smoked during pregnancy, or mother drank alcohol during pregnancy.

High School Completion
- Percentage of all 18- to 24-year-olds1 who have a high school credential2 (Indicator 6)
- Includes traditional high school diplomas and alternative certificates.

1 Does not include those still in high school.
2 Includes traditional high school diplomas and alternative credentials.
GOAL 3  Student Achievement and Citizenship (continued)

10. Mathematics: Has the percentage of students scoring at or above Proficient increased
   • in Grade 4? (1992 vs. 1996)
     — 15%  25%  
     — 13%  21%  
   ❊ 18%  21%  
   • in Grade 8? (1990 vs. 1996)
     — 23%  —  
     — 29%  —  
   ❊ 34%  82%  

GOAL 4  Teacher Education and Professional Development

13. Has the percentage of public secondary school teachers who hold
   • a degree in their main teaching assignment increased? (1991 vs. 1994)
     — 54%  51%  
     — 97%  96%  
   ❊ 66%  63%  
   • a teaching certificate in their main teaching assignment increased? (1991 vs. 1994)
     — 93%  —  
     — 85%  —  
   ❊ 94%  93%  

14. Has the percentage of public school teachers participating in professional
   development programs on 1 or more selected topics increased? (1994)
     — 28%  —  
     — 16%  —  
   ❊ 22%  30%  

15. Has the percentage of public school teachers participating in formal
   teacher induction programs during their first year of teaching increased? (1991 vs. 1994)
     — 22%  —  
     — 22%  27%  
   ❊ 6-42%  7-48%  

Student Achievement
Percentage of public school students scoring at or above Proficient in reading and mathematics (indicators 8 & 10)

Since the end of the previous school year.
## Texas

### Goal 5  Mathematics and Science

17. Has the state’s international standing improved in
   - Grade 8 mathematics achievement? (1996)
   - Grade 8 science achievement? (1996)

18. Has the percentage of public school 8th graders whose mathematics teachers report that they
   - have students work in small groups or with a partner increased? (1996)
   - address algebra and functions increased? (1996)
   - address reasoning and analytical ability increased? (1996)

19. Has the percentage of public school 8th graders who have computers available
   in their mathematics classroom increased? (1996)

20. Has the percentage of mathematics and science degrees awarded to
   - all students increased? (1991 vs. 1996)
   - minority (Black, Hispanic, American Indian/Alaskan Native) students increased? (1991 vs. 1996)
   - female students increased? (1991 vs. 1996)

### Goal 6  Adult Literacy and Lifelong Learning

21. Has the percentage of adults scoring at the 3 highest levels in prose literacy increased? (1992)

22. Has the percentage of U.S. citizens who report that they
   - registered to vote increased? (1988 vs. 1996)
   - voted increased? (1988 vs. 1996)

### Indicator 21: Mathematics Instruction

- Percentage of public school 8th graders whose mathematics teachers report that they do the following, 1996 (indicator 18)
  - Address reasoning and analytical ability
  - Address algebra and functions

### Indicator 21: Adult Literacy

- Percentage of adults who scored at 3 highest levels in Prose Literacy

**Key**

- Significantly better
- Significantly worse
- Interpret with caution. Change was not statistically significant

---

**Note:**

- Indicators are not the same at the national and state levels.
- Data not available.
- See pages 245-246 for an explanation of statistical significance.
- See pages 16-19 for a Guide to Reading the State Pages.
- See Appendix B for technical notes and sources.

---

#### Mathematics Instruction

- Percentage of public school 8th graders whose mathematics teachers report that they do the following, 1996 (indicator 18)
  - Address reasoning and analytical ability
  - Address algebra and functions

#### Adult Literacy

- Percentage of adults who scored at 3 highest levels in Prose Literacy

---

*At least once a week.

*On a 4-point scale from “none” to “a lot,” defined as a response to the top point.*
23. Has postsecondary enrollment increased? (1992 vs. 1996) 52% 54%

24. Has student marijuana use decreased? (1991 vs. 1997) 4-18% 12-35%

25. Has student alcohol use (5 or more drinks in a row) decreased? (1991 vs. 1997) 11-31% 15-42%

26. Has the availability of drugs on school property decreased? (1993 vs. 1997) 6-15% 5-13%

27. Has the percentage of students threatened or injured with a weapon while on school property decreased? (1993 vs. 1997) 13-39% 11-34%

28. Has the percentage of students involved in physical fights on school property decreased? (1993 vs. 1997) 14% — 15% — 8-26% —

29. Has the percentage of students carrying weapons on school property decreased? (1993 vs. 1997) 41% 46% 37% 46% 23-60% 33-65%

30. Has the percentage of students who do not feel safe at school decreased? (1993 vs. 1997) 4% 22% 3% 27% 8-26% —

31. Has teacher victimization decreased? (1994) 14% 15%

32. Has student disruptions that interfere with teaching decreased? (1993 vs. 1997) 13-39% 11-34%

33. Has the percentage of schools with minimal parental involvement decreased, according to public school teachers? (1991 vs. 1994) 32% 36% 22% 18% 14% 24% 9-44% 13-50%

34. Has the influence of parent associations on school policy increased? (1991 vs. 1994) 6% 9% 16% 10% 8-37% 12-50%
