COMMISSIONER WILHELM: Under the agenda that was suspended, the next panel was to have been on Gambling and Crime, and the two panelists who were scheduled -- and I know I'm going to butcher your name -- Mr. deBrueys is here, and as I understand it, is willing to testify, and we appreciate that.

Is Mr. Galanek here? Well, then why don't we have that panel, just as scheduled. Why don't the two of you come forward, if you would.

We have normally had a 15-minute time limit. I don't know that we need to be extremely rigorous about that, in view of the shortened agenda, but if you could try to give us the benefit of your testimony in approximately 15 minutes, that would be helpful.

Debbie, I don't know that you need to do the strict timing because our agenda obviously will be shortened.

I would ask each of you, since I don't have the normal introductory and background material in front of me that the Chair would normally use to introduce each of you, I would ask you each of you if you could introduce yourself by way of your position and background.
