The screen is set up to run first a lifetime screen for all items and then ask about the past year only for those items endorsed for lifetime.

How to score the items:

**Lifetime:** Add 1 point for every YES to any of the following items:
- 1 or 2
- 3
- 5
- 7
- 8 or 9
- 10
- 12
- 13
- 14 or 15 or 16
- 17

**Past year:** Add 1 point for every YES to any of the following items:
- 18 or 19
- 20
- 22
- 24
- 25 or 26
- 27
- 29
- 30
- 31 or 32 or 33
- 34

If gambler responds YES to more than one item in a response cluster (e.g., “8 or 9”), count them together as a single point.

Under the NODS typology, a gambler who scores zero points is a lifetime or past-year Type B gambler, and a gambler who scores a 1 or 2 is a lifetime or past-year Type C gambler. Scoring a 3 or 4 would mean one is a lifetime or past-year Type D gambler, which corresponds to what certain studies have called a “possible pathological gambler” or “problem gambler.” A gambler who scores 5 or more on the NODS is a lifetime or past-year Type E gambler; by DSM-IV criteria, this person is a “probable pathological gambler.”

**Lifetime Problems**

1. Have there ever been periods lasting two weeks or longer when you spent a lot of time thinking about your gambling experiences or planning out future gambling ventures or bets?
   - YES
   - NO

2. Have there ever been periods lasting two weeks or longer when you spent a lot of time thinking about ways of getting money to gamble with?
